Why Do Things Happen

By

Shawntah McLendon Lee

Why do things happen?
Things happen for a reason
Its a on and off thing
Just like the seasons

People ask why do things happen when something sad or bad happens in their life not knowing something sad or bad is followed by something nice So if something sad or bad happens in your life, don't wish it never had or say it never should, just be patient and remember that something bad is always followed by something good.
