Life's Cycle

*Life is a cycle and we're riding...
Riding till the wheels fall off, providing...
Providing that we may not always be able
to handle the direction we go
We're all heading towards the same destination,
some get there fast and others slow
As long as we keep petaling it'll all work out
Even during times that we go down the worst route
Some are equip with training wheels while others
already learned to balance
Moving forward without
looking down is the biggest challenge
But when we fall we get back up and
learn from our mistakes
Like to wear our helmets and always use our brakes
Life's like riding a bike, once you
learn you never forget, even when you're old
In life's cycle we're riding until the end of the road.*
