While working he attended Kingston Technical School in the afternoons studying Fuel Pump Engineering. Winston had a love for wood carving in which he became very skillful, this eventually led him to open his own business – “Ruggles Furniture and Wood Carving” which he conducted for the rest of his life.

A TIME TO ENJOY LIFE

Winston was a kind hearted, genuine person who loved to help people and an advocate for the needy. He was a family oriented individual and great provider for his family. Nothing was too good for him to give to others which afforded him life long friends who knew they had a friend to lean on. He loved music especially that of Bob Marley and Peter Tosh.
